Out-of-the-box

minimizing packaging. maximizing functionality

The story behind changing the packaging

The new direction of gifting premium clients is to invest the budget within the box's inner items that make clients use the items constantly in their everyday lives, so we have minimized the budget in the packaging element to be reasonable price with good quality to keep the real value within the gift itself

When VIP clients use multifunctional giveaways, they showcase your brand to a broader audience. For example, if you offer a multifunctional keychain, it will be carried around and seen by others, increasing brand exposure beyond the initial recipient

The value after choosing the collection

Everyone wants a gift that can be used in various situations, whether it's at home, in the office, during travel, or for outdoor activities. This versatility ensures that your giveaway appeals to a larger audience.

Multifunctional giveaways have a higher chance of being used frequently by recipients. This repeated exposure to your brand increases brand recall and helps to reinforce the association between your brand and the usefulness of the giveaway.
